

# Service Engineer

**Job Type:** Full-time, Permanent

## The Role

- Attend reactive service calls on a variety of air conditioning units including splits, ASHP and VRF systems
- Carry out preventative maintenance on air conditioning, ASHP and ventilation units
- Installation of air conditioning systems
- Write detailed engineers reports in relation to the call
- Liaise directly with customers or their representatives
- Knowledge of ventilation installations would be an advantage
- Knowledge of fault diagnosis and repair of Air Source Heat Pumps would be a distinct advantage

## Position Requirements

- NVQ Level 2 or City & Guilds equivalent in Refrigeration & Air Conditioning
- Safe Handling of Refrigerants or F-Gas (2079 or equivalent)
- Full Clean UK Driving Licence

## The Person

- Possess strong organisational skills
- Used to working under pressure and prioritising workloads throughout the day
- Works methodically to tight deadlines
- Is technically confident & proficient in fault diagnosis & repair
- Is able to work efficiently & independently using own initiative or as part of a team
- Must be F-Gas certified
- Full UK driving licence

## The Package

- Basic salary dependent upon experience and track record
- 25 days annual leave + bank holidays
- Company Vehicle
- Company Phone
- Training
- Overtime
- Healthcare package available
- Salary - Commensurate with experience

## The Location

Based in Dorset, we would like candidates to ideally be based in Poole/Bournemouth or surrounding areas.

Applicants will, on occasion may be required to travel to client sites nationwide, with occasional stayovers.
